

The 6th Annual Course

MAKING SENSE OF STRABISMUS

Venue: The Conference Centre at LACE – Liverpool UK

Monday 23rd, Tuesday 24th & Wednesday 25th of March 2015

Course Organiser

Mr Arvind Chandna - Consultant Ophthalmologist
Royal Liverpool Children's Hospital (Alder Hey)

A detailed insight into assessment and management of childhood and adult strabismus.

Video based demonstrations of patients

Introduce logical step-by-step approach enabling you to make sense of strabismic deviations and arriving at appropriate management decisions.

Interactive, small group based practical transfer of skills sessions to equip you with the necessary skills for carrying out motor and sensory tests and analysing the results.

Surgical procedures will be shown with animation and video demonstrations.

Includes pre-course-materials, course materials post course support for 4 weeks.

Eyelearn is a teaching and learning organisation in Ophthalmology, founded on the best principles of education: training and instruction in active partnership with learners.

A practical interactive course with multiple practical skill transfer sessions, case based discussions, short didactic lectures, guided learning with a low teacher-learner ratio.

This 3-day course is suitable for all trainees in Ophthalmology and for Consultant Ophthalmologists with an interest in Strabismus as a comprehensive update.
