Ms Doyle is a member of the Ordre des Médecins (France), the Irish College of Ophthalmologists and UK Eire Glaucoma Society Membership. She is a Fellow of Royal College of Ophthalmologists and European Board of Ophthalmology.

Niall Sinnott

Niall Sinnott

HSE Assistant National Director, IT Delivery Director for Primary Care

Niall Sinnott is a member of the Senior Management Team of the Office of the CIO (OoCIO) and a member of the Senior Management Team of the Primary Care Division within the Health Service Executive (HSE) in Ireland.

In his current role as IT Delivery Director for Primary Care, Niall is responsible for the delivery of all HSE funded IT initiatives for Primary Care in Ireland. He is responsible for the relationship between the OoCIO and the Primary Care Division and for translating the strategic and operational objectives of the Primary Care Division into programmes and services that the OoCIO can deliver.

In his role, Niall has driven the deployment eReferrals to all hospitals in Ireland and to all GPs nationally and for guiding our first tentative steps into the area of ePrescribing for Primary Care.

BIOGRAPHIES

With 13 years' experience in the Health Service, Niall has worked on the implementation of enterprise wide corporate systems, spent 5 years running the National IT Programme Office which has a portfolio of over 200 capital projects worth €55 million per annum. He has worked closely with the Irish College of GP's and their GPIT Committee to promote development of practice management systems in Primary Care.

Prior to joining the Health Service Niall spent 20 years working in the Aerospace and Automotive industry. An engineer by profession, Niall has worked for multinationals in the UK, US and Germany. Niall has experience of working on large scale Manufacturing Systems, Supply Chain Management and ERP Systems. Niall is a certified PMI, APM and Prince2 practitioner and has delivered numerous high value complex projects as a Programme Manager and Commercial Director.

Gregory Johnston

Gregory Johnston

HSE Programme Lead for E-Referrals

A graduate in Computer Sciences and Health Informatics, Gregory Johnston is an experienced IT Director and Digital Solutions Leader with specialist interest in eHealth innovations. Gregory has a significant width of industry experience across Healthcare, Pharmaceutical (Clinical Trial Management Systems), Financial, Retail, Construction, Agriculture and Telecoms.

In his current role as Programme Manager for Digital Health at the Health Service Executive, Gregory is responsible for the delivery of the national rollout of the Electronic General Referral solution to all public funded hospitals. His responsibilities in the role include; lead authorship on the 'Waiting List Challenge – The Digital Response' (2016/17); design team member for Ireland's first patient portal; data analyst for the delivery of the health identifiers data solution; project lead for big data analysis of health identifiers information; project lead for service directory and MedLIS (GP ordering solution).

BIOGRAPHIES

Gerry Kelliher

Gerry Kelliher

Business Intelligence, National Clinical Programme in Surgery, RCSI

Gerry is a self-motivated ethical business leader who blends strategic thought leadership with operational execution and excellence.

Currently Gerry is providing business change enablement support to the National Clinical Programme in Surgery (NCPS) by deploying objective decision making methods and lean principals to senior management in hospitals, hospitals groups and units within the acute hospital directorate.

Prior to leaving EDS, Gerry was the Chief Information & Technical Officer for the EDS's EMEA retail, manufacturing, transport and justice delivery units which delivered over \$500 million of business transformation, consulting and ICT enablement solutions to EDS customers in government & commercial sectors annually. As CIO/CTO, he participated in strategic business planning of the unit; identifying and managing the delivery of specific initiatives required to support the business plan. Operationally, he had specific responsibility for effectiveness of all solutions delivered, information & communication technology plan delivery, engineering capability development, knowledge management and technical direction within the unit.

Gerry has over twenty five years' experience in all phases of IT systems delivery and ongoing support in the government, manufacturing, finance & logistics sectors, including strategic business & systems architecture consulting, organisational management & technical leadership, project management, business analysis, software development and ongoing systems / application support.

Prof. Michael O'Keefe

Prof. Michael O'Keefe

Consultant Ophthalmic Surgeon and Newman Clinical Professor of Paediatric Ophthalmology, UCD

2017 Montgomery Lecture

'The Evolution of Paediatric Cataract Surgery'

Prof. Michael O'Keefe is a Consultant Ophthalmic Surgeon at the Mater Private Hospital and The Beacon Hospital in Dublin. He was formerly a consultant in the Children's University Hospital and the Mater Misericordiae Hospital Dublin. He is still a consultant at the Rotunda Hospital and the National Maternity Hospital in Dublin.

Prof. O'Keefe is the Newman Clinical Professor of Paediatric Ophthalmology at University College Dublin. His special interests include congenital cataract, ROP and Refractive Surgery. He is a book and chapter editor and has published over one hundred and fifty peer review papers. Prof. O'Keefe reviews articles for six international peer review journals.

He was awarded the Claud Worth Medal for his contribution to Paediatric Ophthalmology in 2004 by the British Child Health Foundation. In 2008 he was awarded the Eustace Medal for his research and contribution to Ophthalmology.
